Auto-refinancing.txt

Edit article

Delete article

EDIT TEMPLATE : Auto-refinancing.txt

```
<h3>Auto Refinancing</h3>
```

```
<p>Refinancing your car loan is a way to get a better interest rate on your loan - in essence, you trade off your old loan for a new loan at a better rate. Refinancing is a great way to take advantage of the great loans being offered by online lenders and traditional mortgage companies. You can get free quotes from several lenders and compare the rates offered by each.</p>
```

```
<p>Refinancing your car loan can save you hundreds to thousands of dollars, if you can get a lower interest rate. Just reducing the loan period can make you eligible for a lower APR. Refinancing your car loan is an ideal way to lower your interest payments or reduce your monthly payments. By doing proper research, including comparing several online auto loan lenders, you can be assured that you are finding the lowest rate.</p>
```

```
<p>Credit Unions do more refinancing of car loans than anyone else, so they are a good place to start. Credit cards, medical bills, and unsecured loans can all be combined into one monthly payment when you apply for a debt consolidation refinance loan. The time has never been better to apply due to the current low interest rates being offered by mortgage lenders.</p>
```
